NIOMETRICS

QA Exercise

Testing Skills

1. Write test case for testing pen with blue ink

Answer

2. Given this requirement:

```
A daily report indicating the log completeness in order to
proactively identify the report incompleteness and to be able to
trigger the logs regeneration.

The report should contain the Log-name, timestamp and status (if
complete/not, missing or not).

Objective: Easier and faster monitoring by IT Team in checking
the completeness of dashboard
```

Write a test case from it.

Answer:

NIOMETRICS
